

Program Guidelines

Individuals, groups, and businesses can help beautify our city. Adopt-A-Spot teams commit to the following:

- Agree to clean litter or debris at the selected spot or beautify a location.
- The City provides safety vests, trash bags, maps & gloves upon request.
- Set your own times for working.
- All groups must have at least 1 adult for every 5 workers.
- Commit to participate for 3, 6, or 12 months; submit your accomplishments annually or after each event. The City will place a sign acknowledging groups committing to 12 months or more after their first cleanup.
- If working on private property, get permission before cleanup events.

You're also invited to participate in citywide efforts for Mission: Clean Stream/Earth Day (April) and Make-A-Difference Day (4th Saturday in October) by conducting cleanups or projects at your site.

For more information call Public Works at 636-327-5102.
